A group of five students, three women and two men, are standing in a lecture hall. They are all smiling and holding up blue boxes. One student in the foreground is holding a smartphone, possibly taking a photo or video of the group. The background shows rows of blue seats and a wooden wall.

A presentation slide with a white background and a brown border. The slide is mostly blank, with a small white box in the top left corner containing the text "Welcome to my Website". There are two small colored squares, one purple and one pink, at the bottom of the slide.
